Associate Software Engineer with about 2 years of experience. Experienced working with Node JS, React JS. Proficient in technologies such as Express JS, Redux, Redis, Web Services, MySQL and MongoDB. Good Analytical, problem solving and Communication Skills and always eager to learn new tools and technologies as per organizational need. I am looking for the opportunity where I can utilize my skills for personal and organization or company growth.

Skills

- HTML | CSS | Tailwind | JavaScript | OOP | TypeScript | MySQL | MongoDB | Node JS | Express JS | Redis | React JS | Redux | jQuery
- Core Java | Microservices | AWS S3 | Jest | Unit Testing | Agile methodologies | Git and GitHub | Jira | Slack | Clickup

Experience

Associate Software Engineer **Spanidea Systems Pvt Ltd** *Jodhpur, Rajasthan* **08/2022 - Current**

- Created EdTeck web applications using MongoDB Database and creating database schema with Node JS, developed APIs with Node JS to interact with view and backend business logic. Tested web services using postman and also used Swagger.
- Implemented logic for pdf and excel document generation with the help of libraries in React. Integrated email sending services.
- Developed view using HTML, CSS, Tailwind and React JS.
- Fixing defects communicated by the testers via Jira and Google docs.

Education

Bachelor of Technology **Rajasthan Technical University** *Kota, Rajasthan* **07/2016 - 09/2020**

12th **SAVM Sr. Sec. School** *RBSE* **07/2013 - 04/2014**

Projects

IFAS: [Live](#) **08/2022 - 03/2023**

- I contributed to this EdTech platform for competitive exams, collaborating with the backend team to architect and implement essential APIs using Node JS and MySQL.
- Managed CRUD operations efficiently and documented APIs with Swagger for testing.
- Actively resolved bugs to maintain platform reliability.
- Tested APIs using Postman.

Tools & Technology: Node JS, Express JS, TypeScript, MySQL, RESTful APIs, Postman, Swagger, Git & Github, Jira.

Dhister: [Live](#) **04/2023 - 07/2023**

- I contributed to front end development with React JS, building components and implementing Redux for state management.
- Utilized Tailwind CSS for UI enhancements.
- Contributed to a platform offering skill courses and job assistance, while also engaging in backend development using Node.js.

Tools & Technology: HTML, CSS, Node JS, Express JS, MongoDB, Tailwind, React JS, Redux, Git & Github, Jira.

Jobeze: [Live](#) **08/2023 - present**

- I've been involved in a web application project aimed at empowering job seekers by streamlining the application process for enhanced efficiency and inclusivity.
- My primary responsibility revolves around developing backend business logic and crafting queries to execute data operations seamlessly.
- Additionally, I collaborate with the frontend team as needed, ensuring smooth integration and alignment between backend and frontend functionalities.

Tools & Technology: HTML, CSS, React JS, Node JS, Express JS, RESTful APIs, MySQL, Redis, Web Socket, Git & Github, Clickup.

Soft Skills

- Time Management, Problem Solving
- Communication
- Teamwork
