PROFILE

I have good experience in manual testing with a strong understanding of software QA methodologies, tools, and processes. I have the ability to create detailed, comprehensive, and well-structured test scenarios and test cases. Skilled in identifying, documenting bugs, and working closely with development teams to resolve issue and ensure quality releases. I also have knowledge about python, and currently I am working on python automation

SKILLS

- Manual Testing
- Python
- Selenium WebDriver
- Python Automation

EXPERIENCE

Spanidea Systems Pvt. Ltd.

May 2024 - Present

MANUAL TESTING

During my tenure at Spanidea, I have contributed to testing activities across five projects : Client Management System (CMS), My Cloud, Virtual Server (Sonet), KPC Health, and Jobeze (currently ongoing). Specifically, I authorized test cases and test scenarios for Client Management System (CMS), KPC Health, and Jobeze, and conducted regression testing for the Jobeze project.

PYTHON

I have also developed skills in Python, and I am currently expanding my capabilities in Python automation. I have automated several practice websites as part of the learning process.
